### **Minutes, Notes, and Happenings of last months' meeting**

Last month's meeting was held on Tuesday June 13th. We had 15 members in attendance, and one guest.

The meeting was called to order by President Bob C. at 7:04.

Bob reviewed the previous shows. Denver Coin Expo was dead on Thur. but good for Dave F. Fri. and Sat.

Bob then reported on upcoming Coin Shows.

Bob then reviewed the items in his Presidential Notes section.

The club decided to cast a ballot on the upcoming ANA election. Club will vote for Gary Adkins for President and all other candidates except Adam Crum, who coincidentally didn't get elected.

Steve D'Ippolito, from the Colorado Springs Coin club, was again making an appearance at our meeting to try and drum up interest in volunteers to work at the World's Fair of Money in August. He was looking for Ambassadors and people to help out in the Kid Zone.

There were no coin magazines, Coin World's, and Greysheets to borrow this month.

Bob reviewed the Coin of Month, Raffle, and Door Prizes.

A motion was made and seconded to approve the minutes that were in the Newsletter.

A motion was made and seconded to approve the Treasurers reports. We currently have \$2969.98 in the club account. (Remember that any adult member may see the complete Treasurer's report by simply requesting to view it at the meeting.)

### Program

The program was on “Paper Money Production, Errors and What You Can Look For In Circulation”, by Dave Heim. Dave talked about how looking through you currency could make you some money. He discussed “\*” or star notes, notes with unique types of serial numbers such as RADAR notes (12344321), ladder notes (12345678 or 98765432), solid (22222222), repeater (23452345), super repeaters (45454545), and low and high (00000100 or 99999927). He also talked about notes with printing errors such as serial numbers on the back, missing seals, and folded notes. He also talked about the ultimate type of errors, mixed denominations. This would be something like a one dollar bill on one side and a five on the other.

### Requests

If you have pictures of coins that you would like to see in the Coin Chatter under the Coin Picture of the Month, please email them to your Secretary. I would prefer jpeg files that are 40k or less in size with a white background.

If you would like to write an article on a coin subject that interests you, and you think other members would be interested in that subject also, send it to your Secretary and it can be published in the Coin Chatter.

**The NSCC needs programs!** If you have a program idea or know of someone who can do a program at an upcoming NSCC meeting, contact the NSCC President or Secretary.

The President or Secretary can be contacted at [info@northsidecoinclub.org](mailto:info@northsidecoinclub.org)

All news items for this month were taken from the Coin Show Podcast, Episode 125, broadcast July 6, 2017. More information about this podcast is available at <http://www.coinshowradio.com/>.

**1. 1794 Liberty Cap, Starred Reverse cent with 'speck of light green crud' still realizes over \$44,000,** June 26, 2017 by Coin World. **Story Summary:** The 1794 Liberty Cap, Starred Reverse cent is one of the most enigmatic productions of the early Philadelphia Mint. There are 94 tiny five-pointed stars between — and at times under — the dentils on the reverse. Nearly all of the tiny stars are still visible and the Goldberg cataloger wrote, "It appears it has never been brushed or 'conserved' in any way."

**2. The world's most valuable Bicentennial Quarter was recently offered at the FUN show summer convention,** June 22, 2017 by Coin World. **Story Summary:** The killer combination of a wrong planchet and a one-year design type make an error coin offered in Heritage's auction at the Florida United Numismatists' summer convention a visually striking piece. The piece is a 1776–1976-D Washington, Bicentennial quarter dollar struck on a cent planchet. The coin retains some of its Mint red color, being graded Mint State 67 red and brown by Numismatic Guaranty Corp.

**3. NGC Signs Charlie Duke, Astronaut Who Walked on Moon, to Autograph Labels,** June 26, 2017 by CoinWeek. **Story Summary:** Duke is one of only 12 people to have walked on the surface of the moon. As part of the Apollo 16 mission, Duke became the 10th man to walk on the moon in April 1972. Then 36 years old, he became the youngest person ever to have stepped foot on the lunar surface — a record that he still holds. A picture that accompanied the article showed his signature on a holder containing a 1972 S Silver Eisenhower Dollar in MS 68 condition. NGC Charlie Duke Authentic Hand-Signed Labels will be available from select retailers later this year.

Another CoinWeek story talked about Pawn Star Rick Harrison was also signed by NGC to autograph a limited number of NGC certification labels.

**4. Newman Portal sets milestones,** June 24, 2017 by Numismatic News. **Story Summary:** Newman Numismatic Portal reports a busy month of June for the online numismatic archive. Len Augsburger is the project coordinator and he was one of the instructors for the Seated Liberty course at Summer Seminar for the past two years. The goal of the portal is to freely share a vast online store of both printed and virtual numismatic resources. Books, periodicals, ephemera, as well as online forums and auction offerings will be captured in one location, freely available, and searchable from anywhere in the world.

## Interesting Coin Facts

No US cents were minted in Philadelphia in 1922. The 1922 "plain" cent, that shows up as a hole in many coin books people use to collect cents, is actually a Denver cent, that, because of die damaged, the die was polished so much, that the D mint mark was no longer visible.
