Minutes, Notes, and Happenings of last months' meeting

Last month's meeting was held on Tuesday June 12th, 2018th. We had 17 members in attendance.

The meeting was called to order by President Bob C. at 7:03.

There were various magazines available.

Bob reviewed past Coin Shows. The Denver show had better foot traffic than in the last few years. Michael S. said dealers he talked with were saying good things about the new ownership of the show.

Bob then reviewed his News Items.

An additional news item was discussed. The 16,000 Morgan Dollar hoard. Consisted of 16 \$1000 mint bags. There were 11 different dates, none rare. Jeff Garrett was handling the sale and all coins were being sent to NGC for grading.

Bob then reviewed the Raffle, Door Prize, and Coin of the Month.

A motion was made and seconded to approve the minutes that were in the Newsletter.

A motion was made and seconded to approve the Treasurers reports. We currently have \$2842.20 in the club account. (Remember that any adult member may see the complete Treasurer's report by simply requesting to view it at the meeting.)

Last Months' Show and Tell Recap

Michael S. – Had some large size notes obtained at the Kansas City Paper Money Show. He had a 1923 \$10 "Poker Chip" Note in VF30. The \$10 symbols on the back of the note look like poker chips. Only a few thousand were produced. Also had a 1914 \$100 Federal Reserve Note graded AU53 that has some great artwork.

He also had a 1964 Kennedy Half in PR69 without accented hair and a 1964 Kennedy Half in PR67 with accented hair. He indicated there are 4 Pick Up Points (PIPs) to determine if the coin has accented hair without looking at the hair. Bob also indicated that there are 1988 P Mint Sets that have Kennedy Halves with rotated Reverses.

Program

The program was a “Early Canadian Coins” by club member Dave G. Dave discussed how the areas that was to make up Eastern Canada did many of the same things as the US colonies and the US did in the 1700 and early 1800’s. They used coins from various sources including France and Great Britain. Most of the coins sent over were used and well worn before they got to Canada. Many of the Provinces of Canada began making various tokens. These usually resembled British coins on the Obverse and had token info on the Reverse. A true Canadian Mint, located in Ottawa, didn’t begin minting coins for Canada until 1908.

Interesting Coin Facts

There are two counterfeit gold coins that actually are collected for being counterfeit. The 1882 \$3 gold piece and the 1907 \$20 St. Gaudens gold piece, but only if they have the secret Omega symbol on the coin. These two coins were supposedly marked by their maker with a small Omega symbol that allows them to be easily identifiable as fake, but you need to know where to look. In actuality there are other indicators that these coins are fake that most authenticators use when examining gold coins.
